SAFETY HOTLINE

A statewide school safety hotline staffed by the Kansas Highway Patrol has been established. This toll-free hotline allows students to anonymously report possible impending violent acts in schools. This 24-hour hotline is staffed and ready to receive phone calls. When a student calls the hotline, the Kansas Highway Patrol central dispatch center will take the call and from there, relay the information to local law enforcement who will then relay the information to the school. The Safety Hotline is:

1-877-626-8203

ATTENDANCE

PHILOSOPHY

Research continues to show a high correlation between regular school attendance and academic achievement. Students should develop habits of punctuality and responsibility which will later be vital in the business community. Each day teachers design learning experiences which serve as building blocks for the student's total education. Absences will result in inconsistent learning and reduced achievement. **WHEN YOU MISS SCHOOL, YOU MISS A LOT!!**

ATTENDANCE POLICY

A student is considered absent when he/she is not in regular classes or in a school sponsored activity. All absences will be recorded on an hourly system. Each hour will stand alone in attendance record-keeping. Students must sign in or out in the attendance log in the office when leaving and returning to school. Failure to do so will result in unexcused absences.

If a student is absent from school, the parents are asked to notify the school by 9:00 a.m. The school will attempt to contact parents of absent students if no call has been received. If no contact is made, a signed note is required from his or her parents stating the reason for the absence unless previous arrangements have been made with the principal. After one (1) day of no notification, an absence will be recorded as unexcused.

A student who has been absent from school due to illness or who has gone home ill during the school day **may not attend any school function taking place after the regular school day is over.**

The principal will have the final say in all cases concerning absences.

Compulsory attendance law requires children between the ages of seven and 18 years to attend school. In compliance with state law, students are considered truant after three (3) consecutive unexcused absences or five (5) unexcused absences in one semester, or seven (7) unexcused absences in one school year. Truancy reports will be filed with the County Attorney.

10 DAY POLICY

Students attending the Hodgeman County U.S.D. 227 schools shall be encouraged to be in school every day they are able to attend. For those students who find it necessary to miss school, the following policy shall apply:

1. All absences shall be recorded on the student's permanent record.
2. Each student is allowed **ten absences (excused and unexcused) per class period per semester** excluding school activities and funerals. After **six** absences a **letter** will be sent to parents to inform them. After **seven** absences there will be a **conference** with the parent, student and administration to set up an attendance contract. If a student misses a class **10 times**, he/she **will not** receive credit for that class. If there are unusual circumstances, like a long-term illness, the school will work in cooperation with the student and parents as necessary. All out-of-school suspensions will count towards the

- 10 day limit.
3. Students desiring to enroll in Hodgeman County Schools after the first twenty days of school will be allowed to enroll but will not receive credit unless the Board of Education grants an attendance waiver. This waiver may be granted due to extenuating circumstances and will be considered on an individual basis for each student.
 4. Students desiring to leave prior to the last day of school shall not receive course credit unless the Board of Education grants an attendance waiver, and each case shall be decided on an individual basis and circumstances.

EXCUSED ABSENCES

Excused absences include **working, illness, doctor appointments and funerals**. However, **parents are to call the school to verify these absences or send a note when the student returns.** Students are to obtain a slip from the attending doctor to verify appointments and/or illness. Sleeping in after a late night game is not an excused absence. A working student must have permission from parents, employer, and the teachers involved indicating no problems due to late assignments or failing classes. **Family trips will be excused as long as students have all make-up work completed before leaving.** Parents must contact the principal concerning the time involved due to a trip. The principal will have the final say in all cases concerning absences.

UNEXCUSED ABSENCES

Any absence for reasons other than those mentioned above and/or without parent knowledge and arrangement with school officials will be considered an unexcused absence. Skipping school, hair appointments, shopping, etc. are examples of some unexcused absences. For any unexcused absence, the parents will be notified.

Time missed for unexcused absences must be made up. This schedule will be determined by the principal for making up time and may also result in In-School Suspension.

TARDIES

Students are expected to be in the classroom when the bell rings at the beginning of the class. Anytime a student enters a classroom after the bell rings without a written excuse from a teacher, principal or secretary, they are considered tardy. Tardies are a disruption to normal classroom procedures and activities and should be avoided whenever possible.

Any student reporting to school during the day after the 1st bell of the day has rung must check in at the office and be given the appropriate pass. If students are tardy for **any class** during the course of the day, you must obtain a tardy slip from the office or the previous hour teacher. Students receiving detention for being tardy will be given a one day allowance to arrange for transportation and parental notification.

Students will be allowed two (2) unexcused tardies. On the **third (3) unexcused tardy**, the student will serve a **30 minute detention**. On the fourth (4) unexcused tardy the student will serve a 60 minute detention. Additional tardies result in the student being assigned to further disciplinary action. The office will keep track of all tardies.

DAILY SCHEDULE

The first bell rings at 7:55 a.m. and classes commence at 8:00 a.m. daily. Doors will open at 7:40 a.m. Dismissal is at 3:45 p.m. **Buses:** The Buses should arrive by 7:50 a.m., unloading at the front of the building. The buses load for the return trip at the front of the building at 3:45 p.m. The student must be responsible for getting on the bus at the proper time. Students are responsible for contacting the grade school and/or bus driver when riding or not.

STUDENTS IN THE BUILDING AFTER DISMISSAL

Students are not to be in the building after 4:00 p.m. without adult supervision. If a student is caught in the building without adult supervision, disciplinary action will be taken and the student may be turned over to local law enforcement.

LENGTH OF SCHOOL DAYS/PERMIT TO LEAVE SCHOOL

Students are under school supervision once they arrive at school. For those students riding the school bus, the school day begins when they enter their bus. The school day comes to a conclusion when the students leave school property or when the students are discharged by the school bus. Any after-school event sponsored by the school is considered as part of the school day. As such, the same rights, responsibilities, rules and channels of authority that have been established are in effect.

Permission from parents must be received in the office before leaving the school during the school day. Students must come to the office to sign out before leaving and upon return, must sign in. A log for signing in and out is placed in the office for this purpose. If a student leaves the building during the day and cannot be accounted for, his/her parents will be called and it will be counted as an unexcused absence.

Students are not to leave during lunch.

ACADEMICS

BOOK RENTAL

USD #227 operates a book rental system. All books will be provided by the school and each student will pay a book rental fee to be determined by the Board of Education. All students participating in the rental program will receive and promise to use the books under the following conditions:

1. To return the books to the school when notified, in as good as condition as when received, allowance being made for wear caused by careful usage.
2. If a book is lost or damaged by carelessness or avoidable accident, the student will replace it.
3. Marking, tearing, or defacing a book will be considered as cause for replacement.
4. Students will not receive credit for any course until all materials and books are returned.

FEES FOR ELECTIVE COURSES OF STUDY

Classes requiring additional fees for classroom supplies/materials must be paid at time of enrollment.

ONLINE COURSES

Online courses may only be used for high school credit if the student has exhausted all other academic options or if the student is using the online course for credit recovery. If the course is offered at the high school, the student must be enrolled in the course at the high school.

MAKE-UP WORK

Make-up work is defined as the actual school work or homework assigned on the day of an excused absence. If appropriate, an alternate assignment equal in purpose and time in order to receive credit may be given. All work that is missed, regardless of the reason for the absence, must be made up as directed by the teacher. Make-up work for absences, if completed properly and on time, will be given full credit. **The normal time allowed for make-up work is the number of school days absent**

plus one school day. Students present at school when assignments are made such as homework or tests, and are absent for a period of time but return to school on the day the assignment or test is scheduled are expected to be prepared, unless special arrangements have been made with the teacher.

All students are responsible for making up work **prior** to being absent due to activities and foreseen absences.

WEEKLY ELIGIBILITY

Eligibility will be computer generated via the student management program each Friday at 9:00 a.m.. Each week, parents will be mailed a progress report if student's grades are below a "C". Students with failing grades will be ineligible the following week (Sunday through Saturday) for extracurricular activities. Grades are accumulated from Friday through Thursday.

GO.EDUSTAR PARENTS ONLINE

Effective communication is a key indicator of a successful school. At USD 227 we believe that open and clear communication between school and home is vital to the success of our educational program. Currently, USD 227 utilizes an online student management system called Go.edustar. One aspect of the system (Parents Online) allows parents to access their student's grades and other information that might be valuable. Below we have listed general information about how the system works and what parents need to do to gain access. We have also included Frequently Asked Questions that may also be beneficial to you.

GENERAL INFORMATION

Parents Online Access Request Form must be signed and returned to either school office before access is granted. Request forms may be obtained by contacting either the grade school or the high school office.

Parents may check grades at any time; the date when the finalized quarterly report card and semester report card may be viewed will be announced each quarter and semester. Teachers use different grading techniques and policies. Please check with the teacher if you are unsure of the grading policy for a specific class. Some assignments and/or categories may be weighted differently than others. Therefore, simple arithmetic average of grades may not reflect your student's actual grade.

Parent Online access is available to every legal parent/guardian of a student enrolled at USD 227.

Parents/guardians will not share their passwords with anyone. Each legal parent/guardian may set up his/her own secure account.

Students' records for preschool, kindergarten, first grade, and second grade are not online and have no plans to be online at this time. Parents of these students must check directly with teachers regarding achievement information.

Here's how you can begin via the internet viewing your student's progress:

1. You must sign and return the **Parents Online Access Request Form** to either school office before access is granted.
2. You will receive an email from Go.edustar that will ask you to click on a link. If you do not receive this email, check in your spam for it; some have gone to spam. Click on the link for account verification.
3. Once you click on the link, you will be taken to the Parents Online site and the system will verify that the link hasn't already been used, that the account is still valid, set the account to **Active** status, reset the password to the eldest child's birth date, and send a second email. The second email will contain the user's username and password information.

*****Due to security measures, you will be allowed only three unsuccessful attempts to log in before your account is locked. You will then need to contact Christina Cohoon at 620-357-8301 or Robin Beil at 620-357-8376 and request that your account be unlocked and have a new password issued.**

PROGRESS REPORTS

Grade reports are computer generated and parents will pick these up when Parent/Teacher Conferences are scheduled following the first and third quarters. Grade cards will be mailed following each semester (second & fourth quarters).

HONOR ROLL

Students who make the Honor Roll will be acknowledged at the end of each semester. An honor roll is for students who have earned all “A’s” for the semester and students that have earned all “A’s” and “B’s” will be recognized for the A/B honor roll. Pass/fail grades are not figured into the honor roll. Students must receive a minimum of five letter grades to be eligible for consideration for the honor rolls.

SENIOR COLLEGE DAYS

Seniors are to notify Mrs. Cossman **and** the office when college days will be taken. Only **three (3)** college days will be excused for **seniors**. Colleges giving assessment tests taken by seniors will be included in the three days. **Juniors** will be allowed **one (1)** college day. Students are to obtain permission from the office **before** taking a college day.

Since college days are not school sponsored, but recognized, parents must call the high school office to verify the excused leave of absence.

STUDENT CLASSIFICATION

Students will be classified as either a freshmen, sophomore, junior or senior based on number of credits they earned by the beginning of a school year.

All students will need the following number of credits for each classification: freshmen - 5 or fewer; sophomores - 5 ½-9; juniors – 10-16; seniors – 17 or more.

(Beginning with the freshmen class of 2003, graduation credits have been increased to 24.)

Students must have 24 credits to graduate.

MIDDLE SCHOOL RETENTION, PROMOTION, SUMMER SCHOOL

1. Any student who fails one or two core classes (Math, Science, English, and Social Studies) may be asked to attend summer school.
2. Summer school will be four weeks (Monday - Thursday). Students will be required to attend 16 days of summer school.

CREDIT RECOVERY

If a student needs to recover credit(s) towards graduation, then the following may be options with administrative approval.

- Classes **may be taken** in the regular schedule if possible. This will take away elective class opportunities for the student.
- Accredited online course(s) **may be taken** outside of the regular school day including summer break. All expenses or fees will be the responsibility of the student and/or the student’s family.
- If all other academic options have been exhausted, then accredited online course(s) may be taken during the student’s regular schedule for credit recover. All expenses or fees will be the responsibility of the student and/or the student’s family. This will take away elective class opportunities for the student.

STUDENT CONCERNS

FEES FOR RETURNED CHECKS

Due to the increased number of returned checks from the patrons in the school district, a \$25.00 service fee will be charged for each returned check due to insufficient funds.

FIELD TRIPS

Field trips are an extension of the classroom, and as such, students are under the jurisdiction of all school rules and regulations. All students on field trips have the responsibility of enhancing the image of Hodgeman County Middle/High School through their positive behavior and manner. Any deviation from that norm may result in the student being restricted from school-sponsored field trips in the future, as well as other appropriate discipline measures.

FIRE, TORNADO ADRILLS

There will be 4 fire, 2 tornado and 3 crisis drills conducted throughout the school year in accordance with Kansas School Code. These drills will be conducted to ensure that students know the proper procedure in case of a disaster that might occur.

Please check with your teacher for proper exit routes for fire drills and for proper procedures for tornado drills. Once outside the school or in the hallways, you are to remain with your class for the entire period of time. In the case of a fire drill, fire or other emergency situation, FOLLOW THE DIRECTIONS OF YOUR TEACHER.

EMERGENCY PROCEDURE FOR OCCUPANTS WITH DISABILITIES

The resource room teacher and/or the principal are the designated personnel who will secure handicapped occupants emergency situations. The designated exit will be the front door (west exit) of the high school. The parking lot to the north of the exit will serve as the designated shelter area to allow emergency personnel easy access and location of handicapped students.

ASSEMBLY RULES

Books and other articles are to be placed in your school hall locker before coming to assemblies. Be prompt and courteous. Do not bring pop or drinks into the auditorium. All students attend all assemblies and will sit in the center section.

GRIEVANCE PROCEDURE

Many times problems can be solved quickly if the parties involved simply meet and discuss the problem as soon as it arises. Once the teacher is aware of the problem it can usually be eliminated. If anytime during the year a problem arises in which a student or parent feels something must be done to correct or change a situation, the following procedure is advised:

1. Go to the teacher. Make an appointment to discuss the problem. If you are not satisfied, proceed to #2.
2. Consult the principal. If the problem is not resolved, the parent should submit a formal complaint, that lists the grievances in writing. This written complaint must give date, comments, and bear the signature of the parent. The document shall be left with the principal. After a formal complaint has been filed concerning school personnel, the school employee must sign the complaint. This is merely an acknowledgment; signing does not constitute an admission of guilt or innocence. The school employee will also be given an opportunity to respond in writing. Then proceed to # 3.
3. The building principal, teacher and parent shall meet with the superintendent and if the problem still is not resolved, proceed to #4.
4. The superintendent will place the formal complaint on the agenda at the next regular

meeting of the Board of Education.

GUIDANCE SERVICES

We provide personal and academic counseling for each student through our counseling office. Our counselor will work with students individually, in small groups, and in the classroom. Some specific purposes for visiting the counselor are: to discuss personal problems; to make long range plans for the future; to discuss test scores; to have a credit check and to seek assistance on career exploration.

TUTOR PROGRAM

Extra assistance for students is provided through our Tutor Program. Tutoring is provided daily from 3:45 pm to 4:15 pm. If necessary, other tutor times can be arranged, schedules permitting. Parents may contact the high school office to make arrangements for tutoring for their child.

STUDENT ILLNESS

If a student becomes ill during the school day, he/she shall report to the office. The secretary will contact a parent or guardian before releasing the student. If no one can be reached, the student will be kept at school. Please make sure your emergency information card is filled out and up-to-date. **NO ORAL MEDICATION WILL BE GIVEN.**

Some illnesses and situations require a child to be absent from school to prevent the spread of infection to other children and to allow the child time to rest, recover and be treated for illness. In order to help keep our children healthy, Hodgeman County Schools requires adherence to the guidelines of this policy.

Children will not be allowed to attend school or school related activities if they have anything contagious such as, but not limited to the following:

FEVER: May return when fever free for 72 hours without the use of fever reducing medicine.

DIARRHEA/VOMITING: May return when symptom free for 24 hours

STREP THROAT: May return after 24 hours of antibiotic treatment and no fever for 24 hours

CONJUNCTIVITIS (pink eye): May return 24 hours after treatment begins and eyes are free of discharge

RING WORM: May return after treatment begins; area should be covered while in school for first 48 hours of treatment

IMPETIGO/STAPH/MRSA: May return 24 hours after treatment starts; wound must be covered with dressing taped on all 4 sides

COMMUNICABLE DISEASES (such as, but not limited to – influenza, chickenpox, measles, mumps, pertussis, meningitis, mononucleosis): May return when cleared by their medical provider

If a student arrives at school with symptoms, or during the school day begins to show symptoms indicative of a condition listed above, a parent/guardian will be contacted and asked to pick the child up as soon as possible.

The parent/guardian needs to maintain direct contact with the school and the student's teacher if the child is diagnosed with any communicable disease so the school can take appropriate steps to protect the entire student population.

MEDICATION FOR STUDENTS

Forms are provided for parents/guardians to fill out for the school when students need either prescription or non-prescription drugs. These forms must be on file in the office for your students. All medications will be kept in the office. Office personnel will be on hand to distribute meds as needed.

DEFIBRILLATOR

The High School is equipped with a Defibrillator. The Defibrillator is located in the South custodian closet in the High School Commons Area.

LOCKERS

Each student is assigned a locker when he/she enrolls. Students are to keep their lockers clean and in good condition. Students should not share lockers with other students. The locker is the property of the school and students are responsible for any damage to the locker. The school administration has both the right and the responsibility to check any locker at any time without prior notice.

NEVER LEAVE MONEY IN YOUR LOCKER. IF YOU HAVE MONEY WITH YOU, YOU MAY PUT IT IN AN ENVELOPE AND HAVE IT PLACED IN THE OFFICE SAFE.

LUNCH AND CAFETERIA

The high school serves lunch daily. We ask that students eat in the lunchroom whether eating school lunch or if they bring their own lunches. Students are to stay out of cars during the lunch hour. This is a **closed** lunch hour and students are not to leave the building. Breakfast will be served at the high school beginning the first day of school. Students should be in the kitchen by 7:40 a.m. if planning to eat breakfast. Students may purchase meals by the week, month or several months. Lunch and breakfast may be purchased together on one check. This year the USDA has extended free meals to all students. Adult Visitor- \$5.00

The 7th & 8th grade will eat lunch from 11:45-12:15. Their 5th hour class is from 12:18-1:05.

The High School will eat lunch from 12:35-1:05.

STUDENT SECURITY

The district will make every effort to provide a safe environment for students while in school attendance or in extra-class activities. The administration and the staff will determine the necessary rules and regulations relative to student safety. Every attempt will be made to keep our building safe and secure.

VIDEO SURVEILLANCE

Video surveillance cameras are installed in both the high school and middle school to assist the district in securing the safety of our students.

TELEPHONE USE

Students are requested to obtain permission from the office to use the phone. Parents should feel free to call the office and leave a message for a student or teacher or leave a number so they can be called back at a free time. Except in an emergency, we will not call students or teachers from the classroom to the phone. Messages will be conveyed to the students.

DISCIPLINE

PHILOSOPHY

Hodgeman County Unified School District #227 believes that discipline is all of the actions that support and guide student activities within a school. Discipline includes the training, strengthening and perfecting of student self-control in such a way as to contribute to the academic and social growth of each student. We believe that Hodgeman County Middle/High School must maintain a positive, educational climate which is conducive to effective learning. Hodgeman County Middle/High School students should adhere to appropriate codes of behavior for their personal development and for the benefit of a positive learning climate within the school and the community. Reasonable rules and regulations are necessary for ensuring the best interests and welfare of individual students and the total school population. Each individual has a right to an education, however, that does not mean the individual is entitled to special rights or privileges that interfere with the educational pursuits of others.

Students are expected to become increasingly responsible for their own behavior and work toward the development of such characteristics as: personal integrity and honesty; a sense of duty; self-esteem; respect for the rights of all persons; a sense of personal responsibility and justice; a sense of self-discipline and pride in one's work; a respect for the achievement of others; and respect for one's personal property, the property of others, and public property.

The Hodgeman County School District's philosophy of discipline is intended to assist students in understanding that school rules function much like the laws in society. Both fulfill a need to protect individual and group rights. Acts of behavior which interfere with the maintenance of an effective learning environment or which are antagonistic to the welfare of other students will not be considered acceptable. A student who commits acts of unacceptable behavior will be subject to disciplinary action.

The discipline measures may be applied on a case by case basis depending on the severity of the behavior code violation. The administration reserves the right to apply other consequences as appropriate.

PUBLIC DISPLAY OF AFFECTION

Students are expected to be courteous at all times. Student behavior is a reflection of acquired values. Boy-girl friends should remember to keep their private lives private. Interlocking arms or holding hands will be permissible, but any other physical display of affection is not permitted.

ALCOHOL/DRUGS/TOBACCO/VAPING/E-CIGARETTE USE

Maintaining drug free schools is important in establishing an appropriate learning environment for the district's students. The unlawful possession, use, sale, or distribution of alcohol, illicit drugs, vaping, e-cigarettes and tobacco and its products by students on school premises or as a part of any school activity is prohibited. Any student violating the terms of this policy will be reported to the appropriate law enforcement officials, and will be subject to disciplinary action by the school. Such disciplinary action will include any one or more of the following: short-term suspensions; suspension from student activities; long-term suspension from school; long term suspension from student activities; readmission under a probationary status; expulsion from school for one year; and suspension from participation and attendance at all school activities for the year. Students may be readmitted during the term of the suspension or expulsion only if the student has completed a drug and alcohol education and rehabilitation program at an acceptable program. The district is not financially obligated to provide for drug and alcohol education and rehabilitation program for any student.

DETENTIONS

The matter of classroom discipline will be handled by the individual teacher. Students may be detained after school or be required to come in before school as deemed appropriate by that teacher.

OFFICE REFERRALS

In cases of continued offenses or misconduct of a serious nature, the student may be sent out of the classroom. Upon being sent out of the classroom, the student will report directly to the principal's office. If the principal is not in, the student will await his return. The teacher will be contacted as to the difficulty, and if it is felt that the student deserves another chance in the class, they will be allowed to return. If it is felt that he or she does not deserve another chance, they will not be allowed to return to that class. This policy will also apply to the library/media center.

DRIVING/PARKING LOT

Driving is a responsibility and a privilege. Students are expected to operate their vehicles in a responsible and orderly fashion. Excessive speed or other reckless or careless acts will not and cannot be tolerated. Students who drive their cars to school shall park them in the appropriate manner in the parking lot. Upon arrival to school, students must exit their vehicles immediately and enter school. Loitering in and around vehicles is prohibited.

No students are to be at their cars during the school day. If a student needs to retrieve something from their car, office permission is required. Students must check back in the office after returning from their cars.

Students that drive are to leave after dismissal (3:45) and not loiter around the buildings or parking lots. Stay away from the elementary school. Please do not interfere with the traffic patterns of the school buses. Buses have the right-of-way.

IMPROPER PARKING

1. **First occurrence** - Conference with administrator
2. **Second occurrence** - 30 minute detention.

SCHOOL BUS CONDUCT

Any violation of school bus rules will be reported to the Transportation Director and to the Principal and may result in disciplinary action that includes loss of school transportation. School transportation is not provided for detentions.

IN-SCHOOL SUSPENSIONS

The ISS program is an alternative to the removal of the student from the school setting. ISS may be used to discipline students who exhibit behavioral problems and violate classroom and school rules. (Including certain unexcused absences.)

Under the ISS plan, students are provided the opportunity to continue their school work. Full credit will be given for regular assignments and full credit for tests in ISS, but all work is required to be completed at the end of ISS and turned in. While in ISS, the student loses privileges to mingle and socialize with the student body. The following procedures for a student when placed in ISS are:

1. The parents will be notified of the infraction and the In-School Suspension.
2. Students on ISS are to report to the Principal's office upon arrival at school. The student will bring all books and supplies for the entire day.
3. Students are placed in the ISS room under the supervision of school personnel.

4. Assignments (including tests) from each of the student's teachers are collected and given to the student at the beginning of each hour.
5. Students on ISS stay in the ISS room for the entire day. The student will eat in isolation and will not be allowed to communicate with fellow students. The student will be escorted to the restroom twice during the day and upon emergency.
6. Absence from ISS due to illness or other emergency reasons shall not relieve the student from fulfilling the required time of assignment.
7. The skipping of an ISS will result in further disciplinary actions. The ISS will be served after further actions are completed.
8. Radios, tape players, and other forms of entertainment are not permitted in the ISS room.
9. Students on ISS are considered in school and making progress toward graduation.
10. Before the student is allowed to return to the regular classroom, the student, parents, and principal will meet and confer as to the educational commitment and future of the student.
11. Students in ISS will not be allowed to participate in extracurricular activities the day of ISS, including practices and games.

OUT-OF-SCHOOL SUSPENSIONS

Students may be suspended or expelled for any one (1) or more of the following reasons:

A student who is suspended out of school may not return until the parents have a conference with the principal. Additional faculty and staff members may be present at the conference as determined by the principal.

Students serving out-of-school suspensions will be given assignments by his/her teachers within one school day. The assignments are to be completed while on suspension and are due the first day back to school. All tests missed during suspension are to be made up on the first day back to school. Work or tests not submitted upon return to school will receive no credit (a zero grade).

Students on out-of-school suspensions are considered "not in good standing" and will not be allowed on school premises, at school activities, or participate in any school function until after the first day back at school.

WEAPONS

A student shall not knowingly possess, handle or transmit any object that can reasonably be considered a weapon at school, on school property or at a school-sponsored event. This shall include any weapon, any item being used as a weapon or destructive device, or any facsimile of a weapon.

Specifically designed educational class field trips involving historical use of weapons are excluded from this definition. Prior approval for such class trips must be obtained from the superintendent.

Possession of a weapon as defined by law, shall result in expulsion from school for a period of one calendar year, except the superintendent may recommend this expulsion requirement be handled on a case by case basis. Expulsion hearings shall be conducted by the superintendent or other certificated employee of the school in which the pupil is enrolled, by any committee of certificated employees of the school in which the pupil is enrolled, or by a hearing officer appointed by the board of education of the school in which the pupil is enrolled. Students violating this policy shall be referred to the appropriate law enforcement agency(ies) and to appropriate social agency(ies). If and upon returning to school the student will have a conference with the principal / superintendent.

TEACHER AUTHORITY

Teachers have the authority to maintain school rules and a proper school atmosphere at all times. This responsibility extends beyond their own classrooms and includes all areas of the school and all events at the school. Students who refuse to comply with the reasonable request of any teacher will be subject to appropriate disciplinary action. Para educators, custodians, bus drivers, cooks, and other school personnel may also direct students to maintain discipline on school grounds, buses, and during school activities.

EMERGENCY SAFETY INTERVENTION

The board of education is committed to limiting the use of Emergency Safety Intervention ("ESI"), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

- Using physical restraint that impacts a student’s primary mode of communication;

 - Any device used by a certified law enforcement officer to carry out law enforcement duties; or

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to

transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only

be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.
