INTRODUCTION

HODGEMAN COUNTY ELEMENTARY SCHOOL PHILOSOPHY

We believe that the individual must learn to interact appropriately within a variety of small and large group situations. This group interaction serves as an aid to the individual student in the development of his/her personal responsibility and self-direction of skills. We further believe that the student's concept of oneself is a major determiner as to what and how he/she learns, and the school has the responsibility of providing activities that will help the individual student to develop a healthy self-concept.

We believe that a student should be able to develop intellectual skills according to his/her ability, aptitude, interest and readiness. It is the responsibility of the school to aid in the development of these skills, by providing an educational program which presents each individual student the choice of large variety of methods, activities and materials to aid him/her in this process.

We believe that a child's physical condition is also a major factor in how well they learn. The school should strive to meet this need by presenting a strong physical education program. Health services will detect sub-normal physical development in the student and refer that student to the proper medical agency for correction.

We believe that all persons who work in this school make their own unique contribution toward fulfillment of these aims. The school principal, regular teachers, special subject teachers, other certified specialists, resource persons and all non-certified employees should make their contribution in a manner which will assure that the educational program is a product of teamwork.

MISSION STATEMENT:

Hodgeman County USD #227 believes that all students are important as unique individuals capable of learning. Therefore, our mission is to maintain a caring, safe environment and to provide a total educational system in which all students acquire the attitudes and competencies necessary to achieve their highest potential.

ELEMENTARY SCHOOL PARENTS

We believe that effective communication between school and home is extremely important for your child's success in school. Shared cooperation and high expectations between home and school will ensure that each student reaches their fullest potential during each school year. We welcome you to visit our school and take an active role in the education of your child.

SAFETY HOTLINE

A statewide school safety hotline staffed by the Kansas Highway Patrol has been established. This toll-free hotline allows students to anonymously report possible impending violent acts in schools. This 24-hour hotline is staffed and ready to receive phone calls. When a student calls the hotline, the Kansas Highway Patrol central dispatch center will take the call and from there, relay the information to local law enforcement who will then relay the information to the school. The Safety Hotline is:

1-877-626-8203

ATTENDANCE

PHILOSOPHY

Research continues to show a high correlation between regular school attendance and academic achievement. Students should develop habits of punctuality and responsibility which will later be vital in the business community. Each day teachers design learning experiences which serve as building blocks for the student's total education. Absences will result in inconsistent learning and reduced achievement. **WHEN YOU MISS SCHOOL, YOU MISS A LOT!!**

ATTENDANCE POLICY

Compulsory attendance law requires children between the ages of seven and 18 years to attend school.

Parents need to notify the school prior to 9:00 a.m. on the day of the absence. If no contact has been made by 9:00 a.m. the office will attempt to contact the parents. Any absence in which the school is not contacted prior to or the day of the absence will be counted as unexcused.

In compliance with state law, students are considered truant after three (3) consecutive unexcused absences, five (5) unexcused absences in one semester or seven (7) unexcused absences in one school year. If this situation occurs, the parent will receive information from the school office explaining trancies. This information will also be given to the proper authorities.

A full day attendance will be counted if a student arrives at school before 10:00 a.m. or leaves after 2:00 p.m. Students arriving at school after 10:00 a.m. or leaving before 2:00 p.m. will be counted a half day of attendance.

Participation in extracurricular activities requires that you must attend class the day of the activity (trips, sports, parties, dances, cheerleading, etc.) Exceptions to this policy must have prior administrative approval.

TARDIES

Students are expected to be in the classroom when the bell rings at 8:00 a.m. Any students arriving at the classroom after the school bell rings at 8:00 a.m. is considered tardy. All tardy students must report to the office for an admit slip before attending class. Tardies are a disruption to normal classroom procedures and activities and every effort should be made to get students to school on time.

Students will be allowed three (3) tardies per semester. When a student receives his/her third tardy, a letter will be sent to the parents that contains a copy of the tardy policy. On the fourth tardy, the student will lose one (1) recess. On the fifth tardy, the student will serve an ASD (After School Detention). Any additional tardies could result in further disciplinary action.

DAILY SCHEDULE

The first bell rings at 7:55 a.m. and classes commence at 8:00 a.m. daily. Doors will open at 7:40 a.m. Children should not arrive on school grounds until 7:40 a.m. The school will not provide supervision until 7:40 a.m., and students will not be allowed in the building before that time. Dismissal is at 3:40 p.m. **Any students not picked up by 3:45 p.m. will be sent to the school office to wait for their ride. Parents may pick them up from the office as the exit**

doors will be locked by 3:45 to ensure safety of all students and staff.

LUNCH SCHEDULE

Lunch begins at 11:00 am and serving ends at noon. For more specific times of classes, please call the office.

ACADEMICS

BOOK RENTAL

USD #227 operates a book rental system. All books will be provided by the school and each student will pay a book rental fee to be determined by the Board of Education. All students participating in the rental program will receive and promise to use the books under the following conditions:

1. To return the books to the school when notified, in as good a condition as when received, allowance being made for wear caused by careful usage.
2. If a book is lost or damaged by carelessness or an avoidable accident, the student will replace it.
3. Marking, tearing, or defacing a book will be considered cause for replacement.

GO.EDUSTAR PARENTS ONLINE

Effective communication is a key indicator of a successful school. At USD 227 we believe that open and clear communication between school and home is vital to the success of our educational program. Currently, USD 227 utilizes an online student management system called Go.edustar. One aspect of the system (Parents Online) allows parents to access their student's grades and other information that might be valuable. Below we have listed general information about how the system works and what parents need to do to gain access. We have also included Frequently Asked Questions that may also be beneficial to you.

GENERAL INFORMATION

Parents Online Access Request Form must be signed and returned to either school office before access is granted. Request forms may be obtained by contacting either the grade school or the high school office.

Parents may check grades at any time; the date when the finalized quarterly report card and semester report card may be viewed will be announced each quarter and semester. Teachers use different grading techniques and policies. Please check with the teacher if you are unsure of the grading policy for a specific class. Some assignments and/or categories may be weighted differently than others. Therefore, a simple arithmetic average of grades may not reflect your student's actual grade.

Parent Online access is available to every legal parent/guardian of a student enrolled at USD 227.

Parents/guardians will not share their passwords with anyone. Each legal parent/guardian

may set up his/her own secure account.

Students' records for preschool, kindergarten, first grade, and second grade are not online and have no plans to be online at this time. Parents of these students must check directly with teachers regarding achievement information.

Here's how you can begin via the internet viewing your student's progress:

1. You must sign and return the **Parents Online Access Request Form** to either school office before access is granted.
2. You will receive an email from Go.edustar that will ask you to click on a link. If you do not receive this email, check in your spam for it; some have gone to spam. Click on the link for account verification.
3. Once you click on the link, you will be taken to the Parents Online site and the system will verify that the link hasn't already been used, that the account is still valid, set the account to **Active** status, reset the password to the eldest child's birth date, and send a second email. The second email will contain the user's username and password information.

******Due to security measures, you will be allowed only three unsuccessful attempts to log in before your account is locked. You will then need to contact Christina Cohoon at 620-357-8301 and request that your account be unlocked and have a new password issued.***

GRADE CARDS

Grade cards will be given on the first Wednesday following each 9 week period. Remember: Please feel free to contact your child's teacher about any questions that you might have concerning his/her grade card. We are always happy to arrange a parent-teacher conference.

PARENT-TEACHER CONFERENCES

Parent-Teacher conferences for K-6 are scheduled following the first and third nine (9) week periods. Time schedules for grades K-6 will be given in advance of the conference date. Please refer to your school calendar for parent-teacher conference dates.

RETENTION

The school accepts the theory that each child can progress in school in accordance with his own special physical and mental growth rate. If an equal opportunity is to be given to each youngster to make his own best progress, some must be allowed to repeat a year of school. In order to be of most benefit to this child, the grade level in which he begins to fall behind the standards of achievement needs to be identified at the earliest possible time.

Every effort will be made by the teachers and by the administration to report the achievement rate of each child to his parents by report cards and by conferences. When it becomes evident that a child is not achieving acceptable learning standards, the parents will be notified that retention is being considered. A parent-teacher conference will be held.

The final decision to promote or retain a student shall rest with the principal after receiving information from parents/guardians, teachers and other appropriate school personnel.

STUDENT CONCERNS

FEES FOR RETURNED CHECKS

Due to the increased number of returned checks from the patrons in the school district, a \$25.00 service fee will be charged for each returned check due to insufficient funds.

FIELD TRIPS

Field trips are an extension of the classroom, and as such, students are under the jurisdiction of all school rules and regulations. All students on field trips have the responsibility of enhancing the image of Hodgeman County Elementary School through their positive behavior and manner. Any deviation from that norm may result in the student being restricted from school-sponsored field trips in the future, as well as other appropriate discipline measures.

FIRE, TORNADO AND CRISIS DRILLS

There will be 4 fire, 2 tornado and 3 crisis drills conducted throughout the school year in accordance with Kansas School Code. These drills will be conducted to ensure that students know the proper procedure in case of a disaster that might occur.

Please check with your teacher for proper exit routes for fire drills and for proper procedures for tornado drills. Once outside the school or in the hallways, you are to remain with your class for the entire period of time. In the case of a fire drill, fire or other emergency situation, FOLLOW THE DIRECTIONS OF YOUR TEACHER.

GRIEVANCE PROCEDURE

Many times problems can be solved quickly if the parties involved simply meet and discuss the problem as soon as it arises. Once the teacher is aware of the problem, it can usually be eliminated. If anytime during the year a problem arises in which a student or parent feels something must be done to correct or change a situation, the following procedure is advised:

1. Go to the teacher. Make an appointment to discuss the problem. If you are not satisfied, proceed to #2.
2. Consult the principal. If the problem is not resolved, the parent should submit a formal complaint that lists the grievances in writing. The written complaint must give date, comments, and bear the signature of the parent. The document shall be left with the principal. After a formal complaint has been filed concerning school personnel, the school employee must sign the complaint. This is merely an acknowledgment; signing does not constitute an admission of guilt or innocence. The school employee will also be given an opportunity to respond in writing. Then proceed to # 3.
3. The building principal, teacher and parent shall meet with the superintendent and if the problem still is not resolved, proceed to #4.
4. The superintendent will place the formal complaint on the agenda at the next regular meeting of the Board of Education.

GUIDANCE SERVICES

We provide personal and academic counseling for each student through our counseling office. Our counselor will work with students individually, in small groups, and in the classroom. Some specific purposes for visiting the counselor are: to discuss personal problems; to make long

range plans for the future; to discuss test scores; to have a credit check and to seek assistance on career exploration.

TUTOR PROGRAM

Extra assistance for students is provided through our Tutor Program. Tutoring is provided Monday, Tuesday, Thursday and Friday from 3:40 pm to 4:30 pm. Parents may contact the grade school office to make arrangements for tutoring for their child.

HEALTH SERVICES

The students of the Hodgeman County Grade School have the services of the county health nurse. The nurse is responsible for immunizations and health records, etc.

Parents are asked to inform the school officials where they can be reached or who should be contacted in case of emergencies and who the family doctor is.

We will make every effort to care for your child and notify you or the person to be contacted if your child becomes ill or is injured at school. No child is sent home or to the doctor unless such contact has been made. In an emergency, your child will be cared for as per the emergency release treatment form on file. We will not give any medication unless the policies and procedures established by the Board are followed. First aid treatment will be administered to your child as needed to the best of our ability in case of injury or illness.

A child with a contagious disease will be excluded from school for the period of time recommended by the State Board of Health. The child will need to be cleared by the Hodgeman County Nurse or your doctor before returning to school after she/he has had a contagious disease.

IMMUNIZATIONS

State regulation requires all children entering the school of the state for the first time to be immunized for diphtheria, hepatitis B, rubella, chickenpox, tetanus, polio, whooping cough, mumps and measles. The county health nurse will contact parents for physicals and immunization following spring enrollment.

STUDENT ILLNESS

If a student becomes ill during the school day, he/she shall report to the office. The secretary will contact a parent, guardian or emergency contact before releasing the student. Please make sure your emergency information is up-to-date. **NO ORAL MEDICATION WILL BE GIVEN.**

Some illnesses and situations require a child to be absent from school to prevent the spread of infection to other children and to allow the child time to rest, recover and be treated for illness. In order to help keep our children healthy, Hodgeman County Schools require adherence to the guidelines of this policy.

Children will not be allowed to attend school or school related activities if they have anything contagious such as, but not limited to the following:

FEVER: May return when fever free (under 100 degrees) for 24 hours, without medication

DIARRHEA/VOMITING: May return when symptom free for 24 hours

STREP THROAT: May return after 24 hours of antibiotic treatment and no fever for 24 hours

CONJUNCTIVITIS (pink eye): May return 24 hours after treatment begins and eyes are free of discharge

RINGWORM: May return after treatment begins; area should be covered while in school for first

48 hours of treatment

IMPETIGO/STAPH/MRSA: May return 24 hours after treatment starts; wound must be covered with dressing taped on all 4 sides

COMMUNICABLE DISEASES (such as, but not limited to – influenza, chickenpox, measles, mumps, pertussis, meningitis, mononucleosis): May return when cleared by their medical provider

If a student arrives at school with symptoms, or during the school day begins to show symptoms indicative of a condition listed above, a parent/guardian will be contacted and asked to pick the child up as soon as possible.

The parent/guardian needs to maintain direct contact with the school and the student's teacher if the child is diagnosed with any communicable disease so the school can take appropriate steps to protect the entire student population.

MEDICATION FOR STUDENTS

Forms are provided for parents/guardians to fill out for the school when students need either prescription or non-prescription drugs. These forms must be on file in the office for your students. All medications will be kept in the office. Office personnel will be on hand to distribute meds as needed.

ELECTRONIC DEVICE POLICY

Electronic devices have become a common means of communication and information access in today's society. However, these devices have the potential of disrupting the orderly operation of the school. The school has therefore created this policy to govern the possession and use of electronic devices on school premises, during school hours, at school sponsored activities, and on school transportation.

DEFINITIONS

For purposes of this policy, “***Electronic Device***” means a privately owned device that is used for audio, video, or text communication or any other type of computer or computer-like instrument. Electronic Devices may include but are not limited to:

- Existing and emerging mobile communication systems and smart technologies (cell phones, smart watches, smart phones, walkie-talkie, pagers, etc.);
- Personal Digital Assistants (PDAs) (Palm organizers, pocket PCs, etc.);
- Handheld entertainment systems (video games, CD players, compact DVD players, MP3 players, iPods, Walkman devices, etc.) and any other convergent communication technologies that do any number of the previously mentioned functions;
- Current or emerging wireless handheld technologies or portable information technology systems that can be used for word processing, wireless internet access, image capture/recording, sound recording and information transmitting/receiving storing, etc.

RULES OF USE

- Use of electronic devices during the school day is prohibited. They must be completely powered down, turned off, and kept out of sight.
- Students may use electronic devices before 8:00 am and after the final bell of the school day.
- At no time may electronic devices be used in restrooms or locker rooms.

- Camera or audio recording functions of electronic devices may pose threats to the personal privacy of individuals, be used to exploit personal information, and/or compromise the integrity of educational programs. Accordingly, the use of the audio recording or camera functions of electronic devices is strictly prohibited on school premises at all times.
- Use of electronic devices on school buses is at the discretion of the bus driver and/or the activity sponsor. Distracting behavior that creates an unsafe environment will not be tolerated.
- Electronic devices shall not be used in a way that threatens, humiliates, harasses, or intimidates individuals, including students, employees, and visitors, or violates local, state, or federal law.

CONFISCATION

If a student violates this policy, his/her electronic device may be confiscated. When an employee confiscates an electronic device under this policy, he/she shall take reasonable measures to label and secure the device and turn the device over to a school administrator as soon as the employee's duties permit. The following discipline procedures will be followed:

1st Violation:

1. Electronic device confiscated; and
2. Electronic device picked up by the student after school.

2nd Violation:

1. Electronic device confiscated; and
2. Parent or guardians are required to pick up electronic device.

The use of an electronic device which invades an individual's personal privacy will result in disciplinary action, up to and including suspension and/or expulsion and referral to appropriate law enforcement agencies.

The use of an electronic device for the purpose of cheating will result in the loss of credit on the test or assignment, possible suspension, possible removal from the class and the loss of the privilege to use electronic devices at school for the remainder of the year.

SECURITY OF DEVICES

Students shall be personally and solely responsible for the security of electronic devices brought to school. The school shall not assume responsibility for theft, loss, damage, or unauthorized calls made with an electronic device. If devices are loaned to or borrowed and misused by non-owners, device owners are jointly responsible for the misuse or policy violation(s).

EXCEPTIONS

With prior approval of the principal, the above prohibitions may be relaxed under the following circumstances:

- The use is specifically required to implement a student's current and valid IEP.
- The use is at the direction of a teacher for educational purposes.
- The use is determined by the principal to be necessary for other special circumstances, health-related reasons, or emergencies.

Violation of this policy can result in discipline, up to and including suspension or expulsion, and notification of law enforcement authorities.

PLAY EQUIPMENT, TOYS, RADIOS, ETC.

The school will not assume responsibility for play equipment, toys, radios, etc. brought to school by students. Lost or stolen items can be a cause of anxiety for both the teacher and student resulting in a great waste of class time. It is requested that no play equipment, toys, radios, etc. be brought to school.

STUDENT APPEARANCE/DRESS CODE

Cleanliness is essential to the child's well-being. Good health habits should be practiced at all times. A child's clothing should be neat and clean and in good taste. The personal appearance of the students attending our school is the responsibility of the parents. It is the responsibility of the principal only when their dress or personal grooming habits are disruptive to the function of school.

Inappropriate dress for school is apparel such as spaghetti straps, halter tops, backless tops, chains, bandanas, and excessively baggy pants. Shorts and skirts should be of appropriate length for school, and pants (no sagging or bagging) and shirts will cover underclothing. Tank tops will not have large or deep cut armholes. Clothing that is excessively short, tight or low cut may not be worn. Shirts advertising or promoting beer, alcohol, cigarettes, drugs or are sexual in nature are not permitted at school.

There will be replacement clothing kept in the office or the student will be sent home to change his/her clothing. Dress code pertains to all school sponsored activities and additional guidelines may be imposed by the sponsor of activities. Staff is to be responsible for enforcing the dress code guidelines. The principal has the final say in all dress code situations. The school is also asking special consideration be taken with the types of soles on shoes worn to school. Cleated soles on shoes will not be allowed at school. This will help us keep our floors clean and attractive. If sandals are worn to school they should have support for the foot. Shoes will be worn on the feet at all times.

CLASS PARTIES & BIRTHDAYS

Classroom teachers will facilitate holiday parties at their discretion. To ensure the safety, security, and confidentiality of all students and staff, and to maintain a consistent educational environment, outside visitors, including parents, are not permitted to attend classroom parties. If your child would like to celebrate his or her birthday (or half-birthday,) you may send birthday treats to school with your child or drop them off in the office for the class to celebrate during an appropriate time in the day. If your child is having a private party, invitations can only be handed out at school if the whole class, all the boys, or all the girls are invited.

PERSONS COMING FOR CHILDREN

It is requested that the school be notified if anyone other than parents come for a child during school hours. Parents should impress upon their children the need for caution in offers of help, rides, etc. from strangers.

STUDENTS LEAVING THE SCHOOL GROUNDS

School officials and teachers believe that after a student arrives at school he/she must not leave the grounds unless he/she has permission from the principal. The school is responsible for the student's welfare during school hours and must see that all precautions are taken for the benefit of the student. Whenever a student leaves school grounds during the school day, the person who is picking him/her up must sign the student out in the office prior to the leaving.

EXTRACURRICULAR

ACCIDENTS

Any student who has an accident or injury while on school property should report immediately to the office to be examined by office personnel. Students should follow this procedure regardless of how slight he/she feels that the injury may be.

STUDENT ATTENDANCE/PARTICIPATION

Students must be in attendance for the entire day of the activity to be eligible for practice, participation or competition. Exceptions will be made for pre-arranged medical appointments that are accompanied by verification from a physician and pre-arranged activities that have been approved by the principal or activity director.

Students must ride district transportation to a school related activity in order to participate. After the event, students can be released to their parents. Parents must sign a release form prior to the student leaving the premises. The principal or athletic director has the final say on any extenuating circumstances.

ASD AND EXTRA-CURRICULAR ACTIVITIES

Any student who receives an after school detention is not eligible to participate in extracurricular activities for that day.

STUDENT ACTIVITIES ELIGIBILITY

On June 12, 2000, the Board of Education adopted an eligibility policy that states: The student shall have passed at least five new subjects (those not previously passed) of unit weight, or its equivalent, the previous semester or the last semester of attendance. (Rule 13-3-A KSHSAA)

Weekly eligibility requirements are as follows: After the third week of the beginning of each semester, students failing any classes will not be permitted to participate in any interscholastic activity the following week. Failing students may attend the event as a spectator. A given week starts on Sunday and runs through the following Saturday.

Eligibility is based upon an AVERAGE grade for the semester course up to that point. NOTE: Students have a three week grace period at the beginning of each semester. After the grace period, students are determined eligible/ineligible on a weekly basis based upon the accumulative semester grade.

Note: Students are permitted to practice during the time they are ineligible. Ineligible students may ride the team bus if agreed upon by the coach or sponsor and if no school time is lost. An eligibility list will be available to the faculty by Friday. All faculty are expected to have failing or near failing grades delivered to the office by Friday at 9:00 am.

DISCIPLINE

PHILOSOPHY

Hodgeman County Unified School District #227 believes that discipline is all of the actions that support and guide student activities within a school. Discipline includes the training, strengthening and perfecting of student self-control in such a way as to contribute to the academic and social growth of each student. We believe that Hodgeman County Elementary School must maintain a positive, educational climate which is conducive to effective learning. Hodgeman County Elementary School students should adhere to appropriate codes of behavior for their personal development and for the benefit of a positive learning climate within the school and the community. Reasonable rules and regulations are necessary for ensuring the best interests and welfare of individual students and the total school population. Each individual has a right to an education, however, that does not mean the individual is entitled to special rights or privileges that interfere with the educational pursuits of others.

Students are expected to become increasingly responsible for their own behavior and work toward the development of such characteristics as: personal integrity and honesty; a sense of duty; self-esteem; respect for the rights of all persons; a sense of personal responsibility and justice; a sense of self-discipline and pride in one's work; a respect for the achievement of others; and respect for one's personal property, the property of others, and public property.

The Hodgeman County School District's philosophy of discipline is intended to assist students in understanding that school rules function much like the laws in society. Both fulfill a need to protect individual and group rights. Acts of behavior which interfere with the maintenance of an effective learning environment or which are antagonistic to the welfare of other students will not be considered acceptable. A student who commits acts of unacceptable behavior will be subject to disciplinary action.

The discipline measures may be applied on a case by case basis depending on the severity of the behavior code violation. The administration reserves the right to apply other consequences as appropriate.

ALCOHOL/DRUGS/TOBACCO/VAPING/E-CIGARETTE USE

Maintaining drug free schools is important in establishing an appropriate learning environment for the district's students. The unlawful possession, use, sale, or distribution of alcohol, illicit drugs, vaping, e-cigarettes and tobacco and its products by students on school premises or as a part of any school activity is prohibited. Any student violating the terms of this policy will be reported to the appropriate law enforcement officials, and will be subject to disciplinary action by the school. Such disciplinary action will include any one or more of the following: short-term suspensions; suspension from student activities; long-term suspension from school; long term suspension from student activities; readmission under a probationary status; expulsion from school for one year; and suspension from participation and attendance at all school activities for the year. Students may be readmitted during the term of the suspension or expulsion only if the student has completed a drug and alcohol education and rehabilitation program at an acceptable program. The district is not financially obligated to provide for drug and alcohol education and rehabilitation program for any student.

OFFICE REFERRALS

In cases of continued offenses or misconduct of a serious nature, the student may be sent out of the classroom. Upon being sent out of the classroom, the student will report directly to the principal's office. If the principal is not in, the student will await his return. The teacher will be contacted as to the difficulty, and if it is felt that the student deserves another chance in the class, they will be allowed to return. If it is felt that he or she does not deserve another chance, they will not be allowed to return to that class. This policy will also apply to the library/media center.

SCHOOL BUS CONDUCT

The driver is in charge of the students and the bus. Students must obey the driver. Any violation of school bus rules will be reported to the Transportation Director and to the Principal and may result in disciplinary action that includes loss of school transportation. School transportation is not provided for detentions.

ASD: AFTER SCHOOL DETENTION

At times, the teacher may feel that it is necessary to keep some students after school is dismissed for the day. When this is the case, the teacher should adhere to the following procedure:

If the student is to stay beyond 3:40 p.m., the teacher will notify the parents or guardian by some means. The teacher or student will either call the parent or guardian to make the notification. If contact cannot be made a written statement will be sent home for the parents signature notifying them of their child's ASD and returned the next day. The child will then serve the ASD the next day. The ASD teacher will remain with their students during the time the student must remain after school. After School Detention will run from 3:40 pm until 4:10 p.m.

IN-SCHOOL SUSPENSIONS

The ISS program is an alternative to the removal of the student from the school setting. ISS may be used to discipline students who exhibit behavioral problems and violate classroom and school rules. (Including certain unexcused absences.)

Under the ISS plan, students are provided the opportunity to continue their school work. Full credit will be given for regular assignments and full credit for tests in ISS, but all work is required to be completed at the end of ISS and turned in. While in ISS, the student loses privileges to mingle and socialize with the student body. The following procedures for a student when placed in ISS are:

1. The parents will be notified of the infraction and the In-School Suspension.
2. Students on ISS are to report to the Principal's office upon arrival at school. The student will bring all books and supplies for the entire day.
3. Students are placed in the ISS room under the supervision of school personnel.
4. Assignments (including tests) from each of the student's teachers are collected and given to the student at the beginning of each hour.
5. Students on ISS stay in the ISS room for the entire day. The student will eat in isolation and will not be allowed to communicate with fellow students. The student will be escorted to the restroom twice during the day and upon emergency.
6. Absence from ISS due to illness or other emergency reasons shall not relieve the student from fulfilling the required time of assignment.
7. The skipping of an ISS will result in further disciplinary actions. The ISS will be

- served after further actions are completed.
8. Radios, tape players, and other forms of entertainment are not permitted in the ISS room.
 9. Students on ISS are considered in school and making progress toward graduation.
 10. Before the student is allowed to return to the regular classroom, the student, parents, and principal will meet and confer as to the educational commitment and future of the student.
 11. Students in ISS will not be allowed to participate in extracurricular activities the day of ISS, including practices and games.

OUT-OF-SCHOOL SUSPENSIONS

Students may be suspended or expelled for any one (1) or more of the following reasons:

1. Willful violation of any published regulation for student conduct adopted or approved by the Board of Education;
2. Conduct which substantially disrupts, impedes, or interferes with the operation of any public school;
3. Conduct which endangers the safety of others or which substantially impinges upon or invades the rights of others at school, on school property, or at a school supervised activity;
4. Conduct which constitutes or would constitute the commission of a felony if committed by an adult;
5. Conduct at school, on school property, or at a school supervised activity which, constitutes or would constitute the commission of a misdemeanor if committed by an adult; or
6. Disobedience of an order of a teacher, law enforcement officer, school security officer, or other school authority, when such disobedience can reasonably be anticipated to result in disorder, disruption, or interference with the operation of any public school, or substantial and material impingement upon or invasion of the rights of others.

A student who is suspended out of school may not return until the parents have a conference with the principal. Additional faculty and staff members may be present at the conference as determined by the principal.

Students serving out-of-school suspensions will be given assignments by his/her teachers within one school day. The assignments are to be completed while on suspension and are due the first day back to school. All tests missed during suspension are to be made up on the first day back to school. Work or tests not submitted upon return to school will receive no credit (a zero grade).

Students on out-of-school suspensions are considered “not in good standing” and will not be allowed on school premises, at school activities, or participate in any school function until after the first day back at school.

WEAPONS

A student shall not knowingly possess, handle or transmit any object that can reasonably be considered a weapon at school, on school property or at a school-sponsored event. This shall include any weapon, any item being used as a weapon or destructive device, or any facsimile of a weapon. Specifically designed educational class field trips involving historical use of weapons

are excluded from this definition. Prior approval for such class trips must be obtained from the superintendent.

Possession of a weapon as defined by law shall result in expulsion from school for a period of one calendar year, except the superintendent may recommend this expulsion requirement be handled on a case by case basis. Expulsion hearings shall be conducted by the superintendent or other certificated employee of the school in which the pupil is enrolled, by any committee of certificated employees of the school in which the pupil is enrolled, or by a hearing officer appointed by the board of education of the school in which the pupil is enrolled. Students violating this policy shall be referred to the appropriate law enforcement agency(ies) and to appropriate social agencies. A student who possesses a firearm shall be reported to law enforcement.

School administrators are required to notify the appropriate law enforcement agency (within 10 days) regarding students expelled or given long term suspension from school for committing a school safety violation.

PROCEDURES FOR HANDLING THREATS

Any threats made by a student towards any person or persons in the school setting will be taken seriously. Each case will be handled separately by the principal. The following procedures may take place: conference with student, parents/guardians, and superintendent; notification of law enforcement; Out of School Suspension and expulsion. If and upon returning to school the student will have a conference with the principal / superintendent.

TEACHER AUTHORITY

Teachers have the authority to maintain school rules and a proper school atmosphere at all times. This responsibility extends beyond their own classrooms and includes all areas of the school and all events at the school. Students who refuse to comply with the reasonable request of any teacher will be subject to appropriate disciplinary action. Para educators, custodians, bus drivers, cooks, and other school personnel may also direct students to maintain discipline on school grounds, buses, and during school activities.

EMERGENCY SAFETY INTERVENTION

The board of education is committed to limiting the use of Emergency Safety Intervention (“ESI”), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such a medical condition must be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such a room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff

deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flier on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. Such documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such a meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.
